The Whole Story

Bond Bridge is a low frequency RF to Wifi Bridge.

It was created for a market that demands to take ceiling fans and motorized shades user experience to the next level.

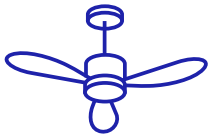

The setup is quick and easy, and there is no need for workarounds or complicated drivers in order to connect ceiling fans, fireplaces or shades.

The Bond Bridge allow for full coverage and control of RF devices within the entire home.

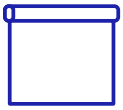

And we are Open! Our open API allows integrations with all home automation systems.

- → The Bond Bridge controls most shade & awning motor brands including: Somfy, Rollease, Dooya, AOK, Bofu, and more.
- → Great range and compatibility, ideal for residential and commercial use.
