

# Lamp Dimmer

## OVERVIEW

The Axxess Lamp Dimmer is the perfect control for dimming lamps within a Control4 automation system, and with the industry-leading performance of the Axxess HPZM Radio Module, this device adds additional router range and capability to your ZigBee network.

The touch user interface allows for convenient lamp control right from the bedside or your favorite reading chair.

It integrates seamlessly into your home automation projects and comes in several colors to suit your decor.

Easy retrofit into most lamp cords makes installation quick and simple.
