

TRUE OCCUPANCY AUTOMATION

Based-on PERSON IDENTIFICATION

Based on patented technology from Intellithings, RoomMe enables the intelligent, robust, fully automated, personalized experience consumers expect from their Smart Home.

THE FIRST OCCUPANCY SENSOR TO KNOW WHO'S IN THE ROOM

RoomMe identifies who is in the room by Smartphones and smart watches and sets Smart Home devices accordingly.

Light, temperature, music and other room settings automatically set based on the preferences of the actual person in the room, without a need to press buttons or talk.

IT'S LIKE MAGIC!

Imagine walking through your home as room devices tailor themselves to your personal preferences.

Two decades ago, Bill Gates surprised the world with the incredible technology built into his home in Seattle. One of the most interesting aspects of the house was the ability of rooms to change and adjust to the people in the room.

Now, RoomMe brings this amazing experience to every Smart Home!

The *FUTURE* of Home Automation is NOW!

**USER
PRIORITIZATION**

RoomMe’s built-in family member priority system solves multi person occupancy conflicts to avoid undesired automation triggering when there’s someone already in the room.

**TRUE
VACANCY DETECTION**

RoomMe’s True Vacancy Detection enables creation of vacancy-based automations to set devices to energy saving mode, when a room becomes empty.

ENHANCED PEACE OF MIND

RoomMe enables consumers to use their voice assistants to check where at home a family member is and for how long he or she has been there.

WORKS WITH EVERYTHING

RoomMe installs in minutes and changes the Smart Home experience for life!

TECHNICAL SPECIFICATIONS

Product Name	RoomMe Sensor		
Certifications	FCC, CE, ISED		
Package		Sensor	
SKU	RoomMeSensor	Diameter	6.1 in
UPC Code	7290017849003	Height	1.77 in
Package Contents	RoomMe Sensor, Mounting Kit, Installer Guide	Material	ABS
Package Size (WxDxH)	7.16x1.96x7.68 in	Color	White
Package Weight	0.9	Wireless Technology	Bluetooth 4.0 Low Energy
		Power	2xD-Type Alkaline Batteries (not included)
		Battery Life	3 Years
